Executive Portfolio 

Master Data Management and Data Governance professional with 15+ years of experience, including 9+ years focused on Master Data, Data Quality, Data Governance, Data Stewardship and SAP MDG. Experienced in managing Material, Customer and Vendor Master Data across global organizations and complex business environments. Strong track record of improving data quality, standardizing processes, establishing governance frameworks and managing end-to-end data lifecycles. Skilled in working with business and IT teams, GPOs and Enterprise Data Office stakeholders to resolve data challenges, strengthen data integrity and support transformation initiatives. Brings a practical, business-focused approach to building reliable, consistent and well-governed enterprise data.

Professional Career Highlights

- Global SAP S/4HANA & MDG Transformation:** Directing Material Master Data model design, governance, and continuous improvement for Novartis GCC's enterprise-wide Lean Digital Core (LDC) digital transformation.
- Enterprise Data Governance Frameworks:** Architected and operationalized global data ownership models, data lifecycle policies, and stewardship workflows across multi-country manufacturing operations.
- Multi-Sector MDM Leadership:** 9+ years specializing in master data and data governance, supported by 15+ years of broader materials, supply chain, and manufacturing experience across Novartis, AkzoNobel, Zentiva, Adani Group, Nayara Energy, Reliance Industries, and Tata Motors.
- Data Quality & Preventive Controls:** Engineered robust CRUD controls, automated data profiling, and Power BI / SQL quality dashboards, eliminating data redundancies and ensuring audit readiness.
- Global Classification & Taxonomy Standards:** Enforced MESC and UNSPSC cataloguing taxonomies across refinery, chemical, and engineering spare parts inventories.
- Strategic Inventory & SCM Optimization:** Spearheaded ABC/XYZ, FSN, and VEDI analytics to optimize warehouse operations and working capital with zero operational disruptions.
- Data Literacy & Cultural Enablement:** Fostered a strong culture of data accountability through global training, self-service data enablement, and cross-functional GPO/EDO collaboration

Professional Journey

2011 – 2013 Engineer Trainee Tata Motors	2013 – 2017 Executive Materials Reliance Industries	2017 – 2021 MDM Analyst Nayara Energy	2021 – 2022 Deputy Manager MDM Adani Enterprise	2022 – 2024 Master Data Expert Zentiva Private Ltd	2024 – 2025 Data Domain Expert AkzoNobel GBS	2025 – Present Data Business Mgr Novartis GCC

Project Portfolio Highlights

Novartis – Enterprise Master Data Governance Transformation
Global Material Master Data Model | Data Governance Framework | Data Ownership | SAP MDG Adoption | S/4HANA LDC

AkzoNobel – Global MDM Governance Transformation
Material/Product Master Standardization | Data Quality Controls | CRUD Governance | MDM CoE

Zentiva – Master Data Quality & Governance Transformation
Material & Business Partner Data | Data Cleansing | Data Migration | Data Quality | SAP MDG

Adani – Enterprise Data Governance & Stewardship
Data Profiling | Metadata Governance | Data Quality | Stewardship Forums

Nayara Energy – Master Data Classification & Governance
MESC | UNSPSC | Data Standardization | Cataloguing | Data Quality | Inventory Optimization

Work Experience

Data Business Manager - Operations (Material Master Data)

Novartis GCC | Hyderabad, India | August 2025 – Present

Data Business Management & Governance Leadership

- Lead global Material Master Data model design, governance, and continuous improvement aligned with enterprise strategy and the flagship Lean Digital Core (LDC) SAP S/4HANA digital transformation program.
- Define and execute the enterprise data roadmap, driving standardization, data harmonization, and global adoption of SAP MDG across diverse business functions and manufacturing sites.
- Establish & govern enterprise data frameworks, including data ownership models, end-to-end lifecycle workflow, and strict data governance policies.
- Drive adoption of core data principles across systems to maximize data quality, usability, compliance, and cross-platform interoperability.
- Partner actively with Global Process Owners (GPOs), Enterprise Data Office (EDO), and cross-functional teams to define, validate, and operationalize critical business data requirements.
- Serve as the Global Subject Matter Expert (SME) for Material Master data governance, resolving complex data modeling escalations and operational challenges.
- Define and monitor data quality KPIs, oversee global data health dashboards, and implement preventive/corrective actions for data anomalies.
- Enhance data integrity, consistency, and reliability across enterprise systems through proactive defect identification and root-cause analysis.
- Champion data literacy initiatives, leading global training, self-service enablement, and driving organizational change toward active data stewardship.

Data Domain Expert - MDM | August 2024 – August 2025

AkzoNobel GBS | Pune, India |

Global Master Data Domain Leadership & S/4HANA Migration |

- Led product and material master data standardization across global Research & Development (R&D) and Integrated Supply Chain (ISC) domains.
- Directed central SAP MDG transformation projects to optimize master data operations, elevate data quality, and ensure audit compliance.
- Engineered and implemented preventive and detective controls across all MDM Create, Read, Update, Delete (CRUD) lifecycle activities.
- Designed scalable MDM solutions and data architectures tailored for complex legacy system landscapes and multi-regional business units.
- Contributed to MDM Center of Excellence (COE) strategy, roadmap execution, data governance standards, and service delivery frameworks.
- Collaborated closely with enterprise IT and business workstreams on large-scale SAP MDG and SAP S/4HANA data migration and cutover projects.
- Coached global data operations teams and facilitated cross-functional alignment across commercial, manufacturing, and supply chain functions.

Master Data Expert

Zentiva Private Ltd | Ankleshwar, Gujarat, India | April 2022 – July 2024

Global Master Data Governance & SAP Implementation

- Governed global master data operations for Material and Business Partner (Customer/Vendor) domains in full compliance with corporate business rules.
- Managed end-to-end SAP master data lifecycles (create, change, extend, block, delete), maintaining high data precision and operational agility.
- Spearheaded enterprise data cleansing, deduplication, enrichment, and validation initiatives across multiple manufacturing sites.
- Played a key role in MDM/MDG system implementations, defining business requirements, executing User Acceptance Testing (UAT), and managing go-live cutovers.
- Developed custom SQL-based data analysis queries and MS Power BI reports to track data quality metrics and SLA compliance.
- Served as the Business Owner for Master Data management software tools including SAP S/4HANA, SAP MDG, and Power BI dashboards.
- Delivered comprehensive data governance training and operational support to the global master data user network.

Deputy Manager - MDM

Adani Enterprise Ltd | Ahmedabad, Gujarat, India | MDM | May 2021 – April 2022

Enterprise MDG Operations & Data Stewardship Governance

- Managed SAP MDG data governance and lifecycle operations across multiple business entities, ensuring compliance with enterprise master data policies, SOPs, and approval workflows.
- Led data quality initiatives, including profiling, automated cleansing, anomaly remediation, and baseline quality scoring to improve master data accuracy and consistency.
- Governed enterprise metadata, data dictionaries, data mapping, and master data migration across heterogeneous SAP landscapes.
- Drove MDM process automation and operational improvements, reducing record turnaround times while facilitating governance forums, steering committees, and collaboration with business units and data stewards.

MDM Analyst | July 2017 – May 2021

Nayara Energy Ltd | Jamnagar, Gujarat, India | July 2017 – May 2021

Refinery Master Data Analysis & Cataloguing Taxonomy

- Managed the complete lifecycle of Material, Vendor, and Customer master data in SAP ERP for mega refinery operations, enforcing MESC and UNSPSC cataloguing standards while driving data cleansing, standardization, and error reduction across procurement transactions.
- Collaborated with IT teams on SAP MM/MM/PM/QM configurations, data migrations, custom validation enhancements, and SAP GRC compliance, while developing MIS reports and supporting internal and statutory audits.
- Executed ABC/XYZ and FSN inventory analysis to optimize stock levels and working capital, while establishing master data governance frameworks, SOPs, and warehouse/cataloguing standards for refinery operations

Previous Experience

Executive Materials

Reliance Industries Ltd | Jamnagar, Gujarat, India (2013–2017)

Managed engineering material stores, warehouse logistics, inventory optimization, QA/QC, and preservation operations for mega-refinery complexes.

Engineer Trainee

Tata Motors Ltd | Ahmedabad, Gujarat, India (2011–2013)

Supported manufacturing quality operations, incoming material inspection, automotive component procurement, vendor development, and plant safety initiatives.

Industry Domain

Pharmaceuticals & Healthcare (GCC)

Oil Refining & Petrochemicals

Automotive & Quality Mfg

Paints & Specialty Chemicals

Energy, Mining & Heavy Infra

Supply Chain & Warehousing

Tools & Technical Proficiencies

Master Data & Governance Platforms: SAP MDG (Master Data Governance), SAP MDM, Enterprise Metadata Management, Data Quality Profiling & Cleansing, CRUD Lifecycle Controls, Data Stewardship Portals.

Enterprise ERP & SCM Systems: SAP S/4HANA, SAP MM (Materials Management), SAP WM (Warehouse Management), SAP PM (Plant Maintenance), SAP QM (Quality Management), SAP GRC (Governance, Risk & Compliance).

Analytics, Databases & BI: MS Power BI (Dashboards & KPIs), MS SQL (Data Querying & Validation), Advanced MS Excel (VLOOKUP, Pivot Tables, Complex Formulas, Macros), MIS Reporting, Data Audit Trails.

Taxonomy, Standards & Methodologies: UNSPSC, MESC Cataloguing, ABC / XYZ Analysis, FSN & VEDI Inventory Optimization, As-Is / To-Be Business Process Transformation, Lean Digital Core (LDC) Principles.

Education Details

Post Graduate Diploma in Materials Management (PGDMM) | Distinction: 74%
Indian Institute of Materials Management (IIMM) | Post Graduated: 2023

Bachelor of Engineering (AMIE) – Mechanical Engineering | 66%
Institution of Engineers | Graduated: Feb 2017

Diploma in Mechanical Engineering | First Class: 67%
Government Polytechnic Rajkot | Completed: July 2011

Professional Certifications & Methodologies

Project Management Professional (PMP®) – Project Management Institute

SAP S/4HANA & SAP MDG Enterprise Data Governance & Architecture

CDMP | Certified Digital Marketing Professional

Lean Digital Core (LDC) & Business Process Transformation

Management skills

Data Governance & Architecture - Enterprise Data Architecture & Modeling - Data Lifecycle & CRUD Governance - Master Data Migration & Cutover - Data Stewardship & Policy Formulation	Stakeholder & Business Alignment - GPO & Enterprise Data Office (EDO) Alignment - Global Data User Training & Enablement - Cross-Functional Team Leadership - Data Literacy & Cultural Change Management	Analytics & Continuous Improvement - Data Profiling, Cleansing & Enrichment - SQL & Power BI Reporting Dashboards - Root Cause Analysis (RCA) & Issue Resolution - Data Quality Health KPIs & SLA Compliance
